THE TOP 45 MOST PROFITABLE NICHES

In this report, I am going to reveal the very best niches for an affiliate to be in. They are the most profitable niches and I am going to show you how you can break into these niches and continually walk away with thousands of dollars in affiliate commissions each and every month.

THE KEY

The key to picking the right niche is to pick a popular niche where there is money being spent. The list of niches in this report are just that..... Popular, with lots of money being spent by rabid niche lovers each and every month.

The thing that makes these niches most profitable is the fact that they are popular. When I say popular, I mean insanely popular with hundreds of thousands and even multiple millions of people that are eagerly awaiting great content to devour. It is the popularity that will enable you to get in front of so many people without exhausting the supply of people. What I mean by this is that if there were only 25 people in a given niche, it wouldn't be long before all 25 people had seen your offer and so your income would be seriously limited. If you have a niche with 20 million people ready to see your offer, then you have a real good potential and viable business.

ONLY THE MOST PROFITABLE NICHE

There are hundreds of niches, and this report is not just a list of niches. It is a list of the very best, most profitable niches for affiliate marketing. Be very cautious therefore about proceeding in any niche that is not mentioned in this report.

WHAT ABOUT COMPETITION

If you go to London and you wanted to buy some electronic goods, the best place to go would be Tottenham Court road. Why? Well it's because most of the shops on that road are electronics retailers. If you want to buy a suit, you would do best going to Savile Row for the same reason. Most of the shops on that road are suit specialists.

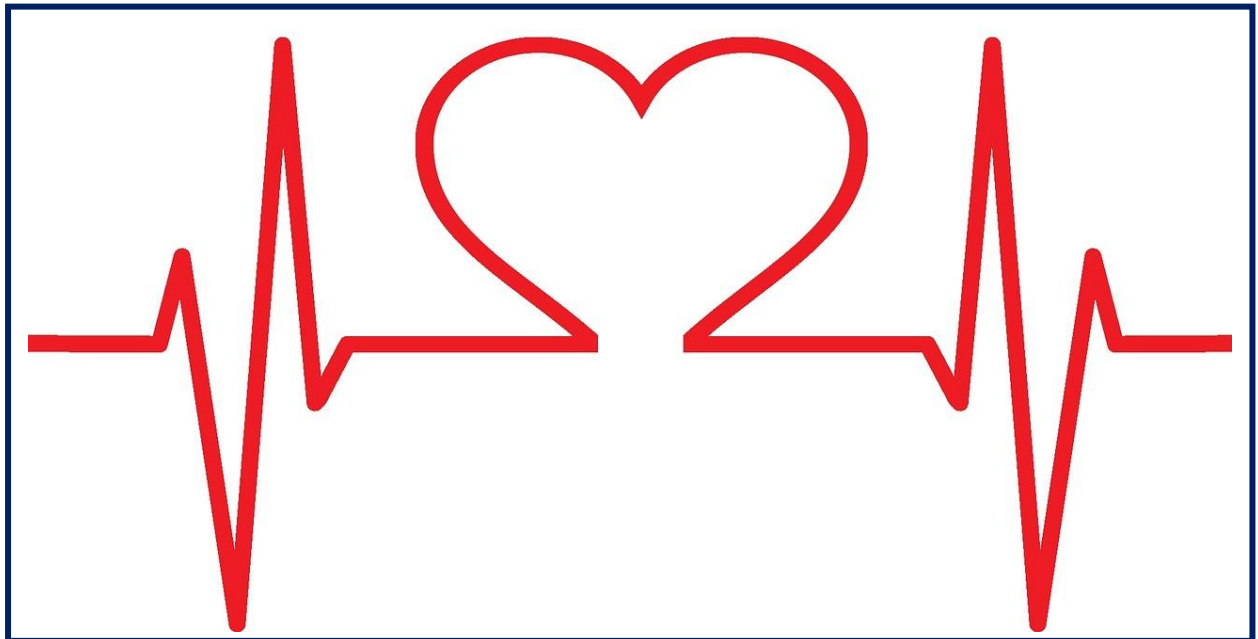

The reason why this is relevant is because we, as affiliates are like the shops I mentioned. We have a lot of competition, and we are getting traffic that is coming down the same road so to speak. I mean, we are getting traffic from Facebook, YouTube, Media Buys and other online locations. We don't need to worry about the competition because the niches are so big with so many potential customers that we just need to have a great hook to attract the customers and position ourselves just like the examples I mentioned above. Actually, we should embrace the competition, because if there is a ton of competition, it means the niche is profitable and that is what we need to know.

THE 4 MOST PROFITABLE NICHE

There are basically only 4 niches. However, these niches are so broad, we can drill down in to sub niches. You need to go after the sub niches and not the 4 broad niches (the sub niches will come further in to this report).

NICHE #1

HEALTH

This is the biggest niche and possibly the most profitable. This means that the niche has a total worth greater than the rest. It doesn't mean however that you will make more money in this niche. Sorry to be confusing. You see, you may pick a niche that

makes you \$1million, and it may not be possible to make that kind of money in one of the sub niches of health. I am saying this so that you don't automatically jump in the health niche just because it is the biggest.

Here Are The Sub Niches: -

- Anti-Aging
- Dieting (Paleo, Ketotonic, Atkins, Low Carb Etc)
- Fat Loss / Weight Loss for Women
- Fat Loss / Weight Loss for Men
- Weight Gain
- Muscle Gain / Muscle Building
- Healthy Cooking (Raw / Organic Food for example)
- Specific Health Problems (Yeast Infection for example)
- Stress Control & Stress Management
- Massage & Aromatherapy
- Beauty & Vanity Niches (Make Up for example)
- Specific Health Problems
 - Cellulite
 - Diabetes
 - Hair Loss
 - Eczema
 - Acid Reflux
 - Panic Attacks
 - Skin Whitening

NICHE #2

MONEY

This niche is very profitable and is the niche we are in as marketers. However, we won't all be going in to the "Make Money Online" niche – The money niche, because that will be some peoples passion, but not others.

You should definitely pick a niche you like, because this is going to be what you do, so what you do should really be about what you love to do. Hope that helps.

Here Are The Sub Niches: -

- Making Money Online
- Money Mindset / Neuro-linguistic programming (NLP)
- Time Management
- Marketing to Small Business Online
- Real Estate & Property
- Search Engine Optimization
- Trading & Investing
- FOREX

NICHE #3

RELATIONSHIPS

This is such a good niche because there are so many desperate triggers. Desperate triggers are when a potential customer needs information urgently. For example, they may have lost their boy friend / girl friend / wife or husband and they want to know what they can do to get them back.

This niche can have a fabulous conversion rate and is a great choice to run with as your niche.

Here Are The Sub Niches: -

- Body Language
- Dating For Men
- Dating For Women
- Marriage
- Parenting
- Sexuality
- Get Your Ex Back

NICHE #4

OTHER INTERESTS

Other interests is a lot broader but covers some great passions. For example, did you know that more than 14,000 people search on Google every month for “Elephant Necklace”. Who would ever have thought that? That is a lot of people interested in necklaces with elephants on the chain. People are interested in a lot of things that we might not have thought about, and many of these niches are less crammed with affiliates gunning for the business.

Here Are The Sub Niches: -

- Done For You
- Meditation
- Spirituality
- Numerology
- Astrology
- Music (Learn to play Guitar, Drums, Piano Etc)
- Sports (Golf is the biggest money maker in this niche)
- Survival (A huge passionate niche)
- Conspiracy (A huge passionate niche)
- Gadgets
- Pets

CONCLUSION

This should be great food for thought. Follow the training, and together with this report, you should be able to find a very profitable niche that you love and are going to enjoy working with, making a lot of money along the way

I wish you all the very best in your online pursuit of financial freedom
